# New Grant from Covid-19 Relief Supports the Lockdown Lunch Box Program.

by [Child Hunger Brantford](#), March 2021

We're pleased to announce a boost to our Lockdown Lunch Box Program in the form of a grant.

This grant will be used to continue implementing our Lockdown Lunch Box program. This program was established to tackle the increased need of accessible food for children and youth due to the COVID-19 pandemic. As the need for food has increased, it has impacted the ability for children and families to access food that meets nutritional health requirements. This grant has allowed Child Hunger Brantford to continue our mission of providing children and families with accessible nutritious food.
